

Join us for training!

November 9 | November 10 | November 11

LITHIUM-ION FIRES NEED A DIFFERENT RESPONSE.

FCL-X is engineered specifically for lithium-ion battery fires. The water-based agent is designed to rapidly cool the fire, interrupt thermal runaway, reduce toxic gas exposure and help prevent reignition.

PFAS-FREE > WATER-BASED

ONE SOLUTION. MULTIPLE HIGH-RISK ENVIRONMENTS.

FIRE DEPARTMENTS
EVs, battery packs
and emergency
response.

FLEETS & SHOPS
Charging bays,
service areas and
equipment.

FACILITIES
Warehouses,
storage systems
and electronics.

Lowndes County EOC Building
Valdosta, GA 31606
